

Title V Operating Permit Data Panel

AFS National Workshop

July 8-11, 2003

Steve Hitte

Today, I will discuss...

- Historical data requirements of title V program
- Present/future needs

Historically

- Developed Permit Program Data Elements – 3/17/94
- 12 elements developed: some are AFS id #, state permit #, date permit issued, date region or public objects to permit
- States and regions responsible for populating AFS
- Needed for program oversight, ensuring program consistency and responding to requests

Present/future Needs

- Data needs have evolved
- Focus presently on permit issuance
- Future: permit modifications, renewals, compliance certifications, fees, ???
- Importance: need data for accountability, program effectiveness and integrity
